MDS ESSENTIALS
FOR THE NEW AND NOT-SO-NEW
June 5, 6, 12, 13, Torrington, CT

Celtic CONSULTING

It's never been more critical to have a solid understanding of Minimum Data Set (MDS) 3.0 Assessment processes. The MDS Assessment is a highly technical tool utilized for billing and clinical reimbursement, quality measure outcomes, and SNF data reporting. Appropriate and skillful completion of MDS processes can result in optimal reimbursement and quality program outcomes.

This course will provide attendees with fundamental knowledge of the MDS assessment and related processes. This course is designed to provide a foundation for professionals looking to fulfill an MDS Coordinator position, as well as SNF leadership looking to advance their understanding the MDS process.

This course is appropriate for professionals with no MDS experience, and for experienced coordinators or Interdisciplinary team members looking to brush up on optimal practices.

Custom course design. Register for 1, 2, 3, or 4 days to meet your training needs and budget.

Seats are limited. This small-class setting is designed to encourage interactive discussion.

Day 1
- Regulatory concepts of the RAI process and its impact
- Assessment types, ARD scheduling and timing
- MDS coding section-by-section (A-E)
- MDS coding section-by-section (F-J)

Day 2
- MDS coding section-by-section (K-N)
- MDS coding section-by-section (O-Q)
- Overview CAAs, care plans, submissions and corrections
- State case mix system basics

Day 3
- Introduction to Medicare
- PPS: PDPM
- PPS reimbursement concepts
- Managed Medicare overview and its relationship to the MDS
- Denial notices
- Typical MDS coordinator duties

Day 4
- ICD-10 coding concepts and instructions
- ICD-10 chapter specific guidelines with examples
- ICD-10 and its relationship to MDS, chart, and billing
